Taher Multan

Sr. Software Developer – IBM Storage Copy Data Management
Pune, Maharashtra, India

Summary

I am a technology professional with 9+ years of experience in software development, currently working at IBM (since Aug 2025). Over the years, I have contributed to building scalable solutions, streamlining processes, and delivering impactful business outcomes through innovative use of technology.

My expertise spans across the Software Development Life Cycle (SDLC), with strong exposure to Agile methodologies and cross-functional collaboration. I have hands-on experience in designing, developing, and deploying applications using modern frameworks and tools.

Technical Skills:

Programming & Frameworks: Java, Angular, Spring, Hibernate

Databases: MySQL, Oracle 10g, MongoDB

Currently, I am also expanding my knowledge in Artificial Intelligence and Machine Learning, aiming to bridge my strong software engineering foundation with intelligent, data-driven solutions.

Experience

IBM

Sr. Software Engineer
August 2025 - Present (3 months)
Pune, Maharashtra, India

Designing, developing, and enhancing features for IBM Storage Copy Data Management software to optimize enterprise data storage and protection.

Building backend services using Java and Spring framework, ensuring scalability, reliability, and high performance.

Utilizing VS Code as the primary development environment with integration into VMware-based deployments on servers.

Collaborating with cross-functional teams to deliver solutions aligned with Agile methodologies and enterprise-grade standards.

Contributing to software deployment, testing, and performance tuning to support efficient data management solutions for clients.
